Example

Phoebe
Wongphatarakul
Web Designer, Member
"insert quote here"

Additional Comments

- ask for info from ppl

fade in - right

Potential Add-Ons

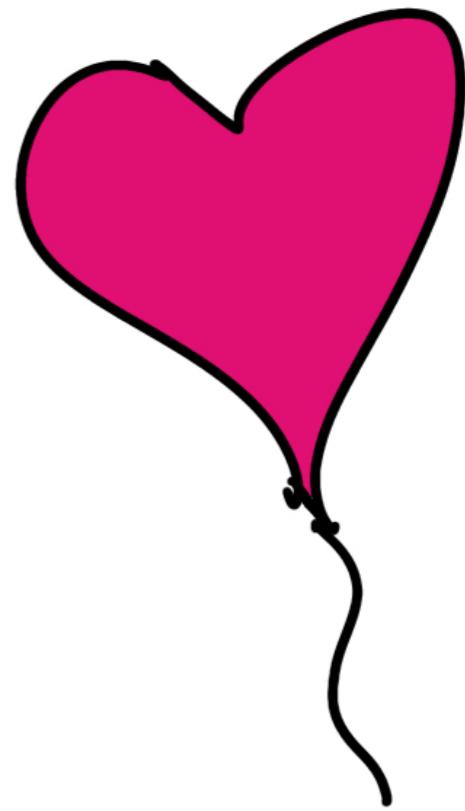

- description of the location like what they do
- preloader

Inspirational Pieces

- when designing the website, I looked on awwards.com & came across a music festival website. The music festival website gave me calm & collective vibes, while also keeping a cool & entertaining visual. Because of this impression, I took inspiration from the top menu. For other parts of the website, I tried to keep the same calm & informational vibe!

Thanks
for looking
at my wireframe :-)

- if you want to see
all of the code for the
"lucy's psychiatry",
